

# Rail Yard Asphalt / Concrete Maintenance

Asphalt & Concrete Road Cleaning / Oil Removal

Line Strip Removal / Lead Painted Lines

We have the systems to efficiently handle rail yard and port surface cleaning:

- Ultra High Waterblasting (up to 40,000 psi) with full vacuum recovery
- Remove oil from concrete without runoff
- Clean up gantry crane runways
- Helps with EPA storm water runoff compliance
- Reduces slippery surfaces
- Fast production rates

Lines Stripe Removal using ultra-high waterblasting – approved for lead paint removal

Rubber removal using ultra-high waterblasting with vacuum recovery

Ask about our rental programs – keep your crews in control of production
